

Safeguarding and Welfare Requirement: Child Protection

Providers must have and implement a policy, and procedures, to safeguard children.

HOLY REDEEMER PRE-SCHOOL

1.2 Safeguarding children, young people and vulnerable adults. Including child protection.

Policy statement

Our setting will work with children, parents and the community to ensure the rights and safety of children, young people* and vulnerable adults**. Our Safeguarding Policy is based on the three key commitments of the Pre-school Learning Alliance Safeguarding Children Policy.

We have a culture of safeguarding that facilitates effective arrangements to: **identify** children who may need early help or are at risk of neglect, abuse, grooming or exploitation; **help** children to reduce their risk of harm by securing the support they need, or referring in a timely way to those who have expertise to help; and **manage** safe recruitment and allegations about adults who may be a risk to children.

Procedures

We carry out the following procedures to ensure we meet the three key commitments of the Alliance Safeguarding Children Policy, which incorporates responding to child protection concerns.

Key commitment 1

We are committed to building a 'culture of safety' in which children, young people and vulnerable adults are protected from abuse and harm in all areas of our service delivery.

- Group provision: Our designated person who co-ordinates child, young person and vulnerable adult protection issues is:

Mrs Shelley Masher

She will support families, support staff, train staff and safeguard children.

- When the setting is open but the designated person is not on site, a suitably trained deputy is available at all times for staff to discuss safeguarding concerns.
- Our deputy officer (a member of the management team) who oversees this work is:

Mrs Laura Heath

- The designated person and the suitably trained deputy ensure they have relevant links with statutory and voluntary organisations with regard to safeguarding.
- The designated person (and the person who deputises for them) understands LSP safeguarding procedures, attends relevant Local Safeguarding Partnership (LSP) training at least every two years and refreshes their knowledge of safeguarding at least annually.
- We ensure all staff are trained to understand our safeguarding policies and procedures and that parents are made aware of them too.
- All staff have an up-to-date knowledge of safeguarding issues, are alert to potential indicators and signs of abuse and neglect and understand their professional duty to ensure safeguarding and child protection concerns are reported to the local authority (MASH). They receive updates on safeguarding at least annually.
- All staff are confident to ask questions in relation to any safeguarding concerns and know not to just take things at face value but can be respectfully sceptical.
- All staff understand the principles of early help (as defined in *Working Together to Safeguard Children, 2023*) and are able to identify those children and families who may be in need of early help and enable them to access it.
- All staff understand LSP thresholds of significant harm and understand how to access services for families, including for those families who are below the threshold for significant harm.
- All staff understand their responsibilities under the General Data Protection Regulations and the circumstances under which they may share information about families with other agencies.
- All staff understand how to escalate their concerns in the event that they feel either the local authority and/or their own organisation has not acted adequately to safeguard.
- All staff understand what the organisation expects of them in terms of their required behaviour and conduct, and follow our policies and procedures on positive behaviour, online safety (including use of mobile phones, cameras and other electronic devices with imaging and sharing capabilities), whistleblowing.

- Children have a key person to build a relationship with, and are supported to articulate any worries, concerns or complaints that they may have in an age appropriate way.
- All staff understand our policy on promoting positive behaviour and follow it in relation to children showing aggression towards other children.
- Adequate and appropriate staffing resources are provided to meet the needs of children.
- Applicants for posts within the setting are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974.
- Enhanced criminal records and barred lists checks and other suitability checks are carried out for staff and volunteers prior to their post being confirmed, to ensure that no disqualified person or unsuitable person works at the setting or has access to the children. All Staff are on the DBS update service which is checked regularly.
- Where applications are rejected based on information disclosed, applicants have the right to know and to challenge incorrect information.
- Enhanced criminal records and barred lists checks are carried out on anyone living or working on the premises.
- Volunteers must:
 - be aged 17 or over;
 - be considered competent and responsible;
 - receive a robust induction and regular supervisory meetings;
 - be familiar with all the settings policies and procedures;
 - be fully checked for suitability if they are to have unsupervised access to the children at any time.
- Information is recorded about staff qualifications, and the identity checks and vetting processes that have been completed following our safer recruitment policy, including:
 - the criminal records disclosure reference number;
 - certificate of good conduct or equivalent where a UK DBS check is not appropriate;
- All staff and volunteers are informed that they are expected to disclose any convictions, cautions, court orders or reprimands and warnings which may affect their suitability to work with children (whether received before or during their employment with us).

- We notify the Disclosure and Barring Service of any person who is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of a child protection concern.
- Procedures are in place to record the details of visitors to the setting in a visitor's book.
- Security steps are taken to ensure that we have control over who comes into the setting so that no unauthorised person has unsupervised access to the children.
- Steps are taken to ensure children are not photographed or filmed on video for any other purpose than to record their development or their participation in events organised by us. Parents consent via the Family app and have access to records holding visual images of their child.
- Any personal information is held securely and in line with data protection requirements and guidance from the Information Commissioner's Office (ICO).
- The designated person in the setting has responsibility for ensuring that there is an adequate online safety policy in place.
- We keep a written record of all complaints and concerns including details of how they were responded to.
- We ensure that robust risk assessments are completed, that they are seen and signed by all relevant staff and that they are regularly reviewed and updated, in line with our health and safety policy.
- The designated officer will support the designated deputy to undertake their role adequately and offer advice, guidance, supervision and support.
- The designated officer or the designated deputy will inform the manager at the first opportunity of every significant safeguarding concern, however this should not delay any referrals being made to children's social care (MASH), the Local Authority Designated Officer (LADO), Ofsted or Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR).
- All staff are aware of the Pandemic Policy, which includes keeping children, staff and parents safe during a pandemic.

Key commitment 2

We are committed to responding promptly and appropriately to all incidents, allegations or concerns of abuse that may occur and to work with statutory agencies in accordance with the procedures that are set down in 'What to do if you're worried a child is being abused' (HMG, 2015) and the Care Act 2014.

Responding to suspicions of abuse

- We acknowledge that abuse of children can take different forms - physical, emotional, sexual and domestic, as well as neglect.
- We ensure that all staff have an understanding of the additional vulnerabilities that arise from special educational needs and/or disabilities, plus inequalities of race, gender, language, religion, sexual orientation or culture, and that these receive full consideration in relation to child, young person or vulnerable adult protection.
- When children are suffering from physical, sexual or emotional abuse, or experiencing neglect, this may be demonstrated through:
 - significant changes in their behaviour;
 - deterioration in their general well-being;
 - their comments which may give cause for concern, or the things they say (direct or indirect disclosure);
 - changes in their appearance, their behaviour, or their play;
 - unexplained bruising, marks or signs of possible abuse or neglect; and
 - any reason to suspect neglect or abuse outside the setting.
- We are aware of the 'hidden harm' agenda concerning parents with drug and alcohol problems and consider other factors affecting parental capacity and risk, such as social exclusion, domestic violence, radicalisation, mental or physical illness and parent's learning disability.
- We are aware that children's vulnerability is potentially increased when they are privately fostered and when we know that a child is being cared for under a private fostering arrangement, we inform our local authority children's social care team.
- We are prepared to take action if we have concerns about the welfare of a child who fails to arrive at a session when expected. The designated person will take immediate action to contact the child's parent to seek an explanation for the child's absence and be assured that the child is safe and well. If no contact is made with the child's parents and the designated person has reason to believe that the child is at risk of significant harm, the relevant professionals are contacted immediately and LSP-procedures are followed. If the child has current involvement with social care the social worker is notified on the day of the unexplained absence.
- We are aware of other factors that affect children's vulnerability that may affect, or may have affected, children and young people using our provision, such as abuse of children who have special educational needs and/or disabilities; fabricated or induced illness; child abuse linked to beliefs in spirit possession; sexual exploitation of children, including through internet abuse; Harmful practices Female Genital Mutilation, and radicalisation or extremism, breast ironing and up-skirting.

- In relation to radicalisation and extremism, we follow the Prevent Duty guidance for England and Wales published by the Home Office and LSP procedures on responding to radicalisation.
- The designated officer completes online Prevent training where available to ensure they are familiar with the local protocol and procedures for responding to concerns about radicalisation.
- We are aware of the mandatory duty that applies to teachers, including early years practitioners, and health workers to report cases of Female Genital Mutilation to the police.
- We also make ourselves aware that some children and young people are affected by gang activity, by complex, multiple or organised abuse, through forced marriage or honour based violence or may be victims of child trafficking. While this may be less likely to affect young children in our care, we may become aware of any of these factors affecting older children and young people who we may come into contact with.
- Where we believe that a child in our care or that is known to us may be affected by any of these factors we follow the procedures below for reporting child protection concerns and follow the Local Safeguarding Partnership procedures.
- Where such evidence is apparent, the child's key person makes a dated record of the details of the concern and discusses what to do with the member of staff who is acting as the designated person. The information is stored on the child's personal file.
- In the event that a staff member or volunteer is unhappy with the decision made of the designated person in relation to whether to make a safeguarding referral they must follow escalation procedures.
- We refer concerns to the MASH and co-operate fully in any subsequent investigation. NB In some cases this may mean the police or another agency identified by the Local Safeguarding Partnership
- We take care not to influence the outcome either through the way we speak to children or by asking questions of children.
- We take account of the need to protect young people aged 16-19 as defined by the Children Act 1989. This may include students or school children on work placement, young employees or young parents. Where abuse is suspected we follow the procedure for reporting any other child protection concerns. The views of the young person will always be taken into account, but the setting may override the young person's refusal to consent to share information if it feels that it is necessary to prevent a crime from being committed or intervene where one may have been, or to prevent

harm to a child or adult. Sharing confidential information without consent is done only where not sharing it could be worse than the outcome of having shared it.

- All staff are also aware that adults can also be vulnerable and know how to refer adults who are in need of community care services.
- We have a whistleblowing policy in place.

Children and young people vulnerable to extremism or radicalisation

Early years settings, schools and local authorities have a duty to identify and respond appropriately to concerns of any child or adult at risk of being drawn into terrorism. LSP's have procedures which cover how professionals should respond to concerns that children or young people may be at risk of being influenced by or being made vulnerable by the risks of extremism.

There are potential safeguarding implications for children and young people who have close or extended family or friendship networks linked to involvement in extremism or terrorism.

- The designated safeguarding lead is required to familiarise themselves with LSP procedures, as well as online guidance including:
 - Channel Duty guidance: Protecting people vulnerable to being drawn into terrorism www.gov.uk/government/publications/channel-and-prevent-multi-agency-panel-pmap-guidance
 - Prevent Strategy (HMG 2011) www.gov.uk/government/publications/prevent-strategy-2011
- The prevent duty: for schools and childcare providers www.gov.uk/government/publications/protecting-children-from-radicalisation-the-prevent-duty
- The designated safeguarding lead should follow LSP guidance in relation to how to respond to concerns regarding extremism and ensure that staff know how to identify and raise any concerns in relation to this with them.
- The designated safeguarding lead must know how to refer concerns about risks of extremism/radicalisation to their LSP safeguarding team or the Channel panel, as appropriate.
- The designated safeguarding lead should also ensure that they and all other staff working with children and young people understand how to recognise that someone may be at risk of violent extremism.

- The designated safeguarding lead also ensures that all staff are aware of their responsibilities with regard to equality and inclusion and children's rights.

Parental consent for radicalisation referrals

LSP procedures are followed in relation to whether parental consent is necessary prior to making a referral about a concern that a child or adult may be at risk of being drawn into terrorism. It is good practice to seek the consent of the person, or for very young children, the consent of their parent/carer prior to making a referral, but it is not a requirement to seek consent before referring a concern regarding possible involvement in extremism or terrorism if it may put a child at risk, or if an offence may have been or may be committed. Advice should be sought from line managers and local agencies responsible for safeguarding, as to whether consent should be sought on a case-by-case basis.

Designated safeguarding leads should be mindful that discussion regarding potential referral due to concerns may be upsetting for the subject of the referral and their family. Initial advice regarding whether an incident meets a threshold for referral can be sought from the relevant local agency without specific details such as names of the family being given in certain circumstances.

Consent is required prior to any individual engaging with a Channel intervention. Consent is usually sought by Channel partners, but LSP procedures should be followed regarding this.

If there is a concern that a person is already involved in terrorist activity this must be reported to the Anti-Terrorist Hot Line 0800 789 321-Text/phone 0800 0324 539. Police can be contacted on 101.

Concerns about children affected by gang activity/serious youth violence

Educators should be aware that children can be put at risk by gang activity, both through participation in and as victims of gang violence. Whilst young children will be very unlikely to become involved in gang activity they may potentially be put at risk by the involvement of others in their household in gangs, such as an adult sibling or a parent/carer.

Designated safeguarding leads should be familiar with their LSP guidance and procedures in relation to safeguarding children affected by gang activity and ensure this is followed where relevant.

Forced marriage/Honour based violence

Forced marriage is a marriage in which one or both spouses do not consent to the marriage but are forced into it. Duress can include physical, psychological, financial,

sexual and emotional pressure. In the cases of some vulnerable adults who lack the capacity to consent coercion is not required for a marriage to be forced. A forced marriage is distinct from an arranged marriage. An arranged marriage may have family involvement in arranging the marriages, but crucially the choice of whether to accept the arrangement remains with the prospective spouses.

Forced marriage became criminalised in 2014. There are also civil powers for example a Forced Marriage Protection Order to protect both children and adults at risk of forced marriage and offers protection for those who have already been forced into marriage.

Risks in relation to forced marriage are high and it is important that educators ensure that anyone at risk of forced marriage is not put in further danger. If someone is believed to be at risk it is helpful to get as much practical information as possible, bearing in mind the need for absolute discretion, information that can be helpful will include things like, names, addresses, passport numbers, national insurance numbers, details of travel arrangements, dates and location of any proposed wedding, names and dates of birth of prospective spouses, details of where and with whom they may be staying etc. Forced marriage can be linked to honour-based violence, which includes assault, imprisonment and murder. Honour based violence can be used to punish an individual for undermining what the family or community believes to be the correct code of behaviour.

In an emergency police should be contacted on 999.

Forced Marriage Unit can be contacted either by professionals or by potential victims seeking advice in relation to their concerns. The contact details are below.

- Telephone: +44 (0) 20 7008 0151
- Email: fmufco.gov.uk
- Email for outreach work: fmufcooutreach.gov.uk

Decision making (all categories of abuse)

- The designated **safeguarding lead** makes a professional judgement about referring to other agencies, including Social Care using the Local Safeguarding Partnership (LSP) threshold document:
 - Level 1: Child's needs are being met. Universal support.
 - Level 2: Universal Plus. Additional professional support is needed to meet child's needs.

- Level 3: Universal Partnership Plus. Targeted Early Help. Coordinated response needed to address multiple or complex problems.
- Level 4: Specialist/Statutory intervention required. Children in acute need, likely to be experiencing, or at risk of experiencing significant harm.
- Staff are alert to indicators that a family may benefit from early help services and should discuss this with the designated **safeguarding lead**.

Seeking consent from parents/carers to share information before making a referral for early help (Tier 2/3*)

Parents/carers are made aware of the setting's Privacy Notice which explains the circumstances under which information about their child will be shared with other agencies. When a referral for early help is necessary, the designated **safeguarding lead** must always seek consent from the child's parents to share information with the relevant agency.

- If consent is sought and withheld and there are concerns that a child may become at risk of significant harm without early intervention, there may be sufficient grounds to over-ride a parental decision to withhold consent.
- If a parent/carer withholds consent, this information is included on any referral that is made to the local authority. In these circumstances a parent should still be told that the referral is being made beforehand (unless to do so may place a child at risk of harm).

**Tier 2: Children with additional needs, who may be vulnerable and showing early signs of abuse and/or neglect; their needs are not clear, not known or not being met. Tier 3: Children with complex multiple needs, requiring specialist services in order to achieve or maintain a satisfactory level of health or development or to prevent significant impairment of their health and development and/or who are disabled.*

Informing parents/carers when making a child protection referral

In most circumstances consent will not be required to make a child protection referral, because even if consent is refused, there is still a professional duty to act upon concerns and make a referral. When a child protection referral has been made, the designated **safeguarding lead** contacts the parents/carers (only if agreed with social care) to inform them that a referral has been made, indicating the concerns that have been raised, unless social care advises that the parent/carer should not be contacted until such time as their investigation, or the police investigation, is concluded. Parents/carers are not informed prior to making a referral if:

- there is a possibility that a child may be put at risk of harm by discussion with a parent/carer, or if a serious offence may have been committed, as it is important that any potential police investigation is not jeopardised
- there are potential concerns about sexual abuse, fabricated illness, FGM or forced marriage
- contacting the parent/carer puts another person at risk; situations where one parent may be at risk of harm, e.g. abuse; situations where it has not been possible to contact parents/carers to seek their consent may cause delay to the referral being made

The designated safeguarding lead makes a professional judgment regarding whether consent (from a parent/carer) should be sought before making a child protection referral as described above. They record their decision about informing or not informing parents along with an explanation for this decision. Advice will be sought from the appropriate children's social work team if there is any doubt.

Referring

- The designated safeguarding lead or back-up follows their LSP procedures for making a referral.
- If the designated safeguarding lead or their back-up is not on site, the most senior member of staff present takes responsibility for making the referral to social care.
- If a child is believed to be in immediate danger, or an incident occurs at the end of the session and staff are concerned about the child going home that day, then the Police and/or social care are contacted immediately.
- If the child is 'safe' because they are still in the setting, and there is time to do so, the senior member of staff contacts the setting's designated officer for support.
- Arrangements for cover (as above) when the designated safeguarding lead and back-up designated **safeguarding lead** are not on-site are agreed in advance by the setting manager and clearly communicated to all staff.

Further recording

- Discussion with parents and any further discussion with social care is recorded. If recording a conversation with parents/carers that is significant, regarding the incident or a related issue, parents/carers are asked to sign and date it a record of the conversation. It should be clearly recorded what action was taken, what the outcome was and any follow-up.

- If a referral was made, copies of all documents are kept and stored securely and confidentially (including copies in the child's safeguarding file).
- Each member of staff/volunteer who has witnessed an incident or disclosure should also make a written statement
- Follow up phone calls to or from social care are recorded in the child's file; with date, time, the name of the social care worker and what was said.
- Safeguarding records are kept up to date and made available for confidential access by the designated officer to allow continuity of support during closures or holiday periods.

Reporting a serious child protection incident using

- The designated safeguarding lead is responsible for reporting to the designated officer and seeking advice if required prior to making a referral as described above.
- For child protection concerns at Tier 3 and 4** it will be necessary for the designated safeguarding lead to complete a Confidential safeguarding incident report form and send it to the designated officer.
- Further briefings are sent to the designated officer when updates are received until the issue is concluded.

** Tier 3: Children with complex multiple needs, requiring specialist services in order to achieve or maintain a satisfactory level of health or development or to prevent significant impairment of their health and development and/or who are disabled. Tier 4: Children in acute need, who are suffering or are likely to suffer significant harm.

Professional disagreement/escalation process

- If a member of staff disagrees with a decision made by the designated safeguarding lead not to make a referral is required then discuss this with the designated officer. Its the staff responsibility to report to MASHand try to resolve it with them.
- If issues cannot be resolved the whistle-blowing policy should be used.
- Supervision sessions are also used to discuss concerns, but this must not delay making safeguarding referrals.

Recording suspicions of abuse and disclosures

- Where a child makes comments to a member of staff that give cause for concern (disclosure), or a member of staff observes signs or signals that give cause for concern, such as significant changes in behaviour; deterioration in general well-being; unexplained bruising, marks or signs of possible abuse or neglect; that member of staff:
 - listens to the child, offers reassurance and gives assurance that she or he will take action;
 - does not question the child, although it is OK to ask questions for the purposes of clarification;
 - makes a written record that forms an objective record of the observation or disclosure that includes: the date and time of the observation or the disclosure; the exact words spoken by the child as far as possible; the name of the person to whom the concern was reported, with the date and time; and the names of any other person present at the time.
- These records are signed and dated and kept in the child's personal file, which is kept securely and confidentially.
- The member of staff acting as the designated person is informed of the issue at the earliest opportunity, and within one working day.
- Where the Local Safeguarding Partners stipulates the process for recording and sharing concerns, we include those procedures alongside this procedure and follow the steps set down by the Local Safeguarding Partners

Making a referral to the local authority children's social care team

- We call MASH and follow their procedures for referrals.
- We keep a copy of this document alongside the procedures for recording and reporting set down by our Local Safeguarding Partnership.

Escalation process

- If we feel that a referral made has not been dealt with properly or that concerns are not being addressed or responded to, we will follow the LSP escalation process.
- We will ensure that staff are aware of how to escalate concerns.

Informing parents

- Parents are normally the first point of contact. Concerns are discussed with parents to gain their view of events, unless it is felt that this may put the child at risk, or interfere

with the course of a police investigation. Advice will be sought from social care if necessary.

- Notes of any discussion we have with parents regarding a concern is kept within the incident file.
- If a suspicion of abuse warrants referral to social care, parents are informed at the same time that the referral will be made, except where the guidance of the Local Safeguarding Partners does not allow this, for example, where it is believed that the child may be placed at risk.
- This will usually be the case where the parent is the likely abuser.
- If there is a possibility that advising a parent beforehand may place a child at greater risk (or interfere with a police response) the designated person should seek advice from children's social care, about whether or not to advise parents beforehand, and should record and follow the advice given.

Liaison with other agencies

- We work within the Local Safeguarding Partners guidelines.
- The current version of 'What to do if you're worried a child is being abused' is available for parents and staff and all staff are familiar with what they need to do if they have concerns.
- We have procedures for contacting the local authority regarding child protection issues (MASH)
- We notify Ofsted of any incident or accident and any changes in our arrangements which may affect the well-being of children or where an allegation of abuse is made against a member of staff (whether the allegations relate to harm or abuse committed on our premises or elsewhere). Notifications to Ofsted are made as soon as is reasonably practicable, but at the latest within 14 days of the allegations being made.

Allegations against staff

- We ensure that all parents know how to complain about the behaviour or actions of staff or volunteers within the setting, or anyone living or working on the premises occupied by the setting, which may include an allegation of abuse.
- We respond to any inappropriate behaviour displayed by members of staff, volunteer or any other person living or working on the premises, which includes:
 - inappropriate sexual comments;
 - excessive one-to-one attention beyond the requirements of their usual role and responsibilities, or inappropriate sharing of images.

- We follow the guidance of the Local Safeguarding Partners when responding to any complaint that a member of staff or volunteer within the setting, or anyone living or working on the premises occupied by the setting, has abused a child.
- We ensure that all staff and volunteers know how to raise concerns about a member of staff or volunteer within the setting. We respond to any concerns raised by staff and volunteers who know how to escalate their concerns if they are not satisfied with our response
- We respond to any disclosure by children or staff that abuse by a member of staff or volunteer within the setting, or working on the premises occupied by the setting, may have taken, or is taking place, by first recording the details of any such alleged incident.
- We refer any such complaint immediately to the Local Authority Designated Officer (LADO) to investigate by completing an online form.
- We also report any such alleged incident to Ofsted (unless advised by LADO that this is unnecessary due to the incident not meeting the threshold), as well as what measures we have taken. We are aware that it is an offence not to do this.
- We co-operate entirely with any investigation carried out by children's social care in conjunction with the police.
- Where the management team and children's social care agree it is appropriate in the circumstances, the member of staff or volunteer will be suspended for the duration of the investigation. This is not an indication of admission that the alleged incident has taken place, but is to protect the staff, as well as children and families, throughout the process.

Disciplinary action

Where a member of staff or volunteer has been dismissed due to engaging in activities that caused concern for the safeguarding of children or vulnerable adults, we will notify the Disclosure and Barring Service of relevant information, so that individuals who pose a threat to children and vulnerable groups can be identified and barred from working with these groups.

Key commitment 3

We are committed to promoting awareness of child abuse issues throughout our training and learning programmes for adults. We are also committed to empowering children through our early childhood curriculum, promoting their right to be strong, resilient and listened to.

Training

- Training opportunities are sought for all adults involved in the setting to ensure that they are able to recognise the signs and signals of possible physical abuse, emotional abuse, sexual abuse (including child sexual exploitation), domestic and neglect and that they are aware of the local authority guidelines for making referrals.
- Designated persons receive appropriate training, as recommended by the Local Safeguarding Partners, every two years and refresh their knowledge and skills at least annually.
- We ensure that all staff know the procedures for reporting and recording any concerns they may have about the provision.
- We ensure that all staff receive updates on safeguarding via emails, newsletters, online training and/or discussion at staff meetings.

Planning

- The layout of the rooms allows for constant supervision.
- No child is left alone with volunteers in a one-to-one situation.
- Occasionally children are taken to do small group work with one member of staff. They would never take more than the official ratio.

Curriculum

- We introduce key elements of keeping children safe into our programme to promote the personal, social and emotional development of all children, so that they may grow to be strong, resilient and listened to and so that they develop an understanding of why and how to keep safe.
- We create within the setting a culture of value and respect for individuals, having positive regard for children's heritage arising from their race, gender, disability, language, religion, sexual orientation and social background.
- We ensure that this is carried out in a way that is developmentally appropriate for the children.

Confidentiality

- All suspicions and investigations are kept confidential and shared only with those who need to know. Any information is shared under the guidance of the Local Safeguarding Partners

Support to families

- We believe in building trusting and supportive relationships with families, staff and volunteers.
- We make clear to parents our role and responsibilities in relation to child protection, such as for the reporting of concerns, information sharing, monitoring of the child, and liaising at all times with the local children's social care team.
- We will continue to welcome the child and the family whilst investigations are being made in relation to any alleged abuse.
- We follow the Child Protection Plan as set by the child's social worker in relation to the setting's designated role and tasks in supporting that child and their family, subsequent to any investigation.

*A 'young person' is defined as 16–19-year-old. In an early years setting, they may be a student, worker, or parent/carer.

**A 'vulnerable adult' (see guidance to the Care Act 2014) as: *'a person aged 18 years or over, who is in receipt of or may need community care services by reason of 'mental or other disability, age or illness and who is or may be unable to take care of him or herself, or unable to protect him or herself against significant harm or exploitation'*. In early years, this person may be a service user, parent/carer of a service user, or a volunteer.
